Mike has a "sign-up" sheet going around for our Christmas Party next month.

Jim Rees has more gift cards (King Soopers). He reported that the club received a check for \$450 but that is a two month figure.

Remember, if you bring in a new member and he stays 6 months, you get Free Dues - per new member for a quarter.

**Sertoman of the Day:** Mr. "It was a dark and stormy night" Phil Grimm came once again to tell us a bit about his life. It was a dark and stormy night (or day) on November 18, 1934, at Porters Hospital, when Phil Grimm decided to come into the world, backwards. The Dr's at that time weren't real sure how to deal with this kind of birth so they needed some help. Phil attended Lincoln Elementary, Grant Jr. High and Englewood Sr. High, graduating in 1952. He then took Pre-Dental at DU for one year and participated in Air Force ROTC and dated a WAC.

At about this time, he met Marlys (who had Cheerleader legs), a Dental Assistant for Phil's Uncle and in 1953, they were married. They have 3 kids and 4 grand kids. He was brought into the club by Bill Anderson and Bill Parchen. In 2002/2003, Phil was the club President after going through most of the chairs.

Phil started his working career doing summer jobs like building a house, shoveling up to 20 tons of manure a day and buffing cars. In 1957 he went into the sign

business and retired from it in 2001. Now he plays tennis, golf and cards to stay busy.

Listen to Phil give today's presentation about his family roots. [Phil Grimm.mp3](#)

**Program:** Bob Buckland filled in for Randy Smith and introduced Susan Chandler, 5th degree black belt Ki-Aikido instructor, speaker, corporate trainer, and radio show host, founded Chandler Resources in 1991 with a passion for making the insights from aikido available beyond the martial art.

That passion took Susan back to graduate school in 2001 to explore developments in brain science concerning the neural underpinnings of the interconnection between movement, mind, and emotion. She holds an M.A. in integrative social neuroscience, and continues to explore and write about the developing understanding of the integrative brain as it relates to everyday experience.

Her unique approach also draws upon her experience as a musician and teacher. Taken together, her multifaceted perspective – including the martial and performing arts, social and brain science, and insights from everyday living – creates a rich and powerful learning experience.

Susan has provided programs over the last 20 years to a wide range of businesses and organizations including hospitals, schools, aerospace companies, government offices, telecommunication companies, non-profits, and small businesses.
